

Policy: <b>Expenditure Analysis on Sponsored Programs</b>	Policy No: <b>S3.4</b>
Policy Developer(s): <b>Office of Sponsored Research</b>	Original Date: May 18, 2018
Last Review Date:	Approval Date: October 17, 2019

I. **POLICY:** All costs charged to a sponsored program must comply with the sponsor’s terms and conditions, John Carroll University (“the University”) policies and procedures, and Federal regulations including [45 CFR 75 Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards](#) and [2 CFR 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#).

II. **PURPOSE:** For proper management of a sponsored project it is imperative that activity statements are reconciled on a regular basis to ensure that expenditures are charged correctly and within appropriate guidelines. Using these tools, regular monitoring of sponsored projects helps to:

- Ensure that costs are consistent with the project schedule and incurred between the start and stop dates of the project.
- Discover any errors in the budget, encumbrances, or expenditures.
- Confirm the availability of project funds as needed.
- Avoid overspending, which may cause a deficit and limit further spending.
- Verify that corrections and cost transfers have been made or are made in a timely manner.
- Maintain good documentation for an audit if one should occur in the future.

III. **SCOPE:** This policy applies to all sponsored awards and must be followed by all University faculty, staff and students involved with sponsored awards and/or the processing of expenses charged to sponsored awards.

**IV. PROCEDURES:**

A. **Monitoring Expenses:** Expenditures for sponsored projects and cost sharing accounts must be reviewed by a knowledgeable individual, i.e., the principal investigator (PI) or designee (typically the financial or research administrator) so that adjustments can be made in a timely manner, and that rates of expenditures can be monitored to assure availability of funds.

Any questionable charges must be brought promptly to the PI's attention, and, if needed, corrected by an appropriate transfer. Transfers should be initiated as soon as possible after a need has been identified. Cost transfers that represent corrections of errors should be completed within three months of when the error is discovered. The PI or designee should monitor actual against budgeted expenses and identify and address variances (the difference between a budgeted cost and the actual expense incurred.)

## S3.4 Expenditure Analysis on Sponsored Programs

---

- B. Re-Budgeting:** Although sponsors allow some flexibility with respect to re-budgeting, un-obligated balances, and pre-award costs, the University and sponsors expect expenditures to be reasonably consistent with the approved project and budget.

Sponsors may question or restrict expenditures that appear inconsistent with the project plan and budget. PIs are obligated to request prior approval when budget and program plan revisions indicate a significant change in scope.

Indicators of a change in scope can include, for example, significant expenditures beyond the amount authorized on the award, or requests for additional funding. PIs are obligated to request prior approval when budget and program plan revisions indicate a significant change in scope. Consult with OSR for additional guidance and to submit a formal request to the sponsor.

For federal grants, advance written approval by the sponsor is required for:

- Change in the scope or the objective of the project or program
- Change in the PI
- Disengagement for more than three months or a 25% reduction in time devoted to the project, by the approved PI and/or key personnel
- Additional federal funding
- The transfer, by contract or other means, of a significant part of the research or substantive programmatic effort (i.e., subaward).

- C. Responsibility:** The PI has overall responsibility for the technical and fiscal management of a sponsored project. This includes managing the project within funding limitations as well as adhering to reporting requirements and assurance that the sponsor is notified when significant conditions related to project status change. A PI's fiscal management responsibilities include regular monitoring of each awarded project's expenses against approved budgets.

While responsibility for the day-to-day management of project finances may be delegated to administrative staff, accountability for compliance with University policy and sponsor requirements ultimately rests with the PI.

- D. Sanctions:** Failure to adhere to this policy and procedures may result in the administrative suspension and/or termination of a sponsored program agreement and other appropriate corrective actions.
